SUMMARY

Full-stack developer who has designed, built and shipped real products to production. I combine engineering (Python/Django and React/TypeScript) with UX/UI, product design and digital marketing. My flagship work is **OMSTA**, an ERP in production used every day by a travel agency, which I built end to end.

EXPERIENCE

Full-Stack Developer — **CristegnoViajes SRL (OMSTA)**

Feb 2025 – Present

Dominican Republic

- Designed and built **OMSTA** end to end, an ERP in production used daily by 9 users to run the agency's operations.
- Integrated **bookings, CRM, payments, double-entry accounting, payroll, branches, users and permissions**, and DGII tax reports.
- Built the frontend and backend with **Django, Django REST Framework, PostgreSQL and Redis**, and managed deployment and evolution in production.

Web Developer & Designer — **Freelance**

Ongoing

Dominican Republic

- Designed and built **web products for real clients**, including an artisan-soap e-commerce and a professional photography portfolio.
- Owned **requirements gathering, UX/UI, development and responsive optimization** through final delivery.

SELECTED PROJECTS

- Delicaté 4.0 — Artisan-soap e-commerce & brand site.** Catalog managed in Django REST, public experience in React + Vite, category/benefit filters, persistent cart and WhatsApp checkout.
- Network 3.0 — Full-stack social network.** React + TypeScript and Django REST; JWT auth, infinite-scroll feed, image posts, likes, nested comments, profiles, follows and notifications.
- Wiki Universe — Content-exploration experience.** Content architecture and clear themed navigation; full-stack.
- Photography site & portfolio.** Full website for a photographer built in React: visual portfolio plus services, about and contact.

SKILLS

Core: Python, Django, Django REST Framework, React, TypeScript, PostgreSQL, Redis
Frontend & product: Next.js, Tailwind CSS, UX/UI, Accessibility, SEO
Infrastructure & quality: Docker, Railway, Vercel, Git/GitHub, Playwright, REST APIs
Design & creative: Figma, Photoshop, Lightroom, Photography, Art direction, Digital marketing

EDUCATION

- CS50x & CS50W** — Harvard University (CS50). Certificates completed, 2023–2024.
- Digital Marketing Program** — EducaciónIT and Manhattan University. 207 hours, 2024.
- Multimedia Design** — Complementary creative training, approx. 1 year.
- High School Diploma, Humanities & Modern Languages** — Ministry of Education (MINERD), Dominican Republic, 2024.
